

ROUTE1 INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE THREE MONTHS ENDED MARCH 31, 2017

As at May 15, 2017

The following discussion and analysis of the financial condition and results of operations (this "MD&A") of Route1 Inc. (also referred to as "we", "us", "our", "Route1", or the "Company"), should be read in conjunction with the Company's interim condensed consolidated financial statements and related notes as at and for the quarter ended March 31, 2017. These unaudited interim condensed consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

This Management Discussion & Analysis ("MD&A") has been reviewed and approved by the Company's Board of Directors prior to filing.

The information in this MD&A is current to May 15, 2017, unless otherwise noted.

FORWARD-LOOKING STATEMENTS

The following discussion may contain forward-looking statements about matters that involve risk and uncertainties, such as statements of Route1's plans, objectives, expectations and intentions, as well as financial trends. The discussion also includes cautionary statements about these matters. You should read the cautionary statements made below as being applicable to all forward-looking statements wherever they appear in this document. In drawing a conclusion or making a forecast or projection set out in the forward-looking information, the Company takes into account the following material factors and assumptions in addition to the above factors: the Company's ability to execute on its business plan; the acceptance of the Company's devices and services by its customers; the timing of execution of outstanding or potential customer orders by the Company; the sales opportunities available to the Company; the Company's subjective assessment of the likelihood of success of a sales lead or opportunity; the Company's historic ability to generate sales leads or opportunities; and that sales will be completed at or above the Company's estimated margins. This list is not exhaustive of the factors that may affect our forward-looking information. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking information.

Factors that could cause Route1's actual results to differ materially from the forward-looking statements are contained herein and include, but are not limited to, overall economic conditions, competitive pressures and unexpected technology changes. Additional information concerning risks and uncertainties affecting Route1's business and other factors that could cause financial results to fluctuate is set forth later in this document, as well as elsewhere herein, and is contained in Route1's filing with Canadian securities regulatory authorities, available on the SEDAR website (www.sedar.com) under Route1 Inc. and on the Company's website (www.route1.com).

This MD&A includes additional disclosures on the critical accounting policies and estimates, additional

disclosure on the quarterly selected financial information, additional discussion and analysis on the factors affecting the Company's financial performance, additional disclosure on future liquidity and capital needs including the addition of a tabular presentation of contractual obligations, additional disclosure on the last eight quarters, and details of related party transactions. The Company does not believe that any of the additional information provided, and that has not been otherwise disclosed in other filings, is material in nature.

OVERVIEW

Route1 Inc. is a world-leader in secure data protection technologies and user authentication for government and enterprise. Route1 solutions enable the workforce to be more productive and more flexible without compromising system access, data-at-rest, or data-in-use. The Company's suite of patented enterprise security solutions combines best-in-class authentication, data security and secure communications with streamlined administration tools, running on a proven, trusted infrastructure. From mobile access to business continuity to best-in-class full system encryption, Route1 offers the most effective, affordable methods to secure the digital fortress, while meeting or exceeding the highest standards for government and industry. Route1 has Full Authority to Operate from the U.S. Department of Defense, the U.S. Department of the Navy, the U.S. Department of the Interior and other government agencies. The Company is also trusted by enterprise security teams in the banking, healthcare, legal and education sectors, among others.

HIGHLIGHTS

- On February 9, 2017, the Company provided an operations update as follows:
 - As of December 31, 2016, Route1 had 17,883 paying, active subscribers. This represents an increase of 539 subscribers from the quarter ended September 30, 2016 and increase of 1,597 users from December 31, 2015.
 - Route1 appointed John Marino as a board director to assist the Company in working with the Trump administration, and the leadership of agencies in which Route1 has a strong interest in that agency's continued use and/or expansion of MobiKEY technology and the adoption of DerivID.

- A total of 1,000,000 stock options at an exercise price of \$0.05 per share were granted to John Marino. The stock options expire on February 8, 2022 and will vest thirty percent on the first anniversary, thirty percent on the second anniversary and the remainder on the third anniversary.
- As of February 7, 2017, the Company purchased 2,884,000 common shares pursuant to the NCIB announced on September 27, 2016.
- On February 28, 2017, the Company announced its first MobiKEY order from the U.S. Marine Corps (USMC) for 50 MobiKEY application software licenses and 50 MobiKEY Fusion3 devices. The MobiKEY technology is now available on an enterprise-wide contract vehicle that allows all components of the USMC to procure MobiKEY. Route1 expects sales in the first ninety days of 100-250 users and additional further growth on a monthly basis similar to the Company's experience with the US Department of the Navy.
- On March 27, 2017, the Company filed a complaint against AirWatch LLC (AirWatch) in the U.S. District Court for the District of Delaware for infringement of U.S. Patent No. 7,814,216, seeking damages and an injunction. The damages the Company will be seeking are material when compared to Route1's market capitalization. Route1 contends that AirWatch infringes on U.S. Patent No. 7,814,216 in violation of 35 U.S.C. § 271 through at least the operation of a cloud-based controller of what AirWatch refers to as "The AirWatch Enterprise Mobility Management System" (AirWatch EMM System) in order to facilitate secure communications between remote computing devices such as cell phones and tablets and resources residing on corporate networks, such as email and corporate intranets, and application programs such as spreadsheets and word processors.
- On March 28, 2017, the Company announced that the Company expects to renew all of its material contracts with its U.S. government clients with the exception of U.S. Customs and Border Protection (CBP). As a result of recent leadership changes in the office of the CIO at CBP, and a move by current technology leadership at CBP to closely align CBP's mobility plan with that set out by the recently resigned CIO at the Department of Homeland Security, CBP will not be renewing its license for 7,000 MobiKEY subscribers after its current subscription term ends on April 30, 2017. Despite the loss of CBP, Route1 believes that it will continue to generate positive EBITDA in calendar year 2017. The Company's plan for growth consists of organic growth from MobiKEY and DerivID sales, surfacing the value embedded in its intellectual property through litigation, licensing and other arrangements, and the release of new technologies, as well as through acquisitions, which collectively will serve as the roadmap to accelerated revenue and cash flow growth in calendar 2017.

NON-IFRS FINANCIAL MEASURE: Adjusted EBITDA

Within this MD&A, we use the term Adjusted EBITDA (earnings before interest, income taxes, depreciation and amortization, stock-based compensation, restructuring and other costs). Adjusted EBITDA does not have any standardized meaning prescribed under IFRS and is therefore unlikely to be comparable to similar measures presented by other companies.

Adjusted EBITDA allows us to compare our operating performance over time on a consistent basis. We believe that certain investors and analysts use Adjusted EBITDA to measure a company's ability to service debt and to meet other payment obligations, or as a common valuation measurement in the technology industry.

The table below reconciles Adjusted EBITDA to Operating profit before stock-based compensation for the quarters presented.

	For the Quarters Ended					
In thousands of Canadian dollars	Mar 31	Dec 31	Sept 30	June 30	Mar 31

COMPARISON FOR THE THREE MONTHS ENDED MARCH 31, 2017 AND 2016

Revenue

Revenue for the three months ended March 31, 2017 was \$1,940,770, representing an increase of \$223,147 from \$1,717,623, for the same period in 2016. The comparison, discussed by segment, is as follows:

Devices and Appliances

Revenue from MobiKEY devices (MobiKEY Classic device, MobiKEY Classic 3 device, the MobiKEY Fusion device, the MobiKEY Fusion2 device and the MobiKEY Fusion3 device) and appliances (the DEFIMNET platform and the MobiNET Aggregation Gateway) for the three months ended March 31, 2017 was \$29,567, representing a decrease of \$39,603, from \$69,170 for the same period in 2016.

Devices and appliances revenue as a percentage of total revenue represents 1.5% of total revenue for the current period compared to 4.0% for the prior year period.

Services

Revenue from the services segment (MobiKEY application software, the DEFIMNET platform and other appliance licensing or yearly maintenance) for the three months ended March 31, 2017, was \$1,910,989, representing an increase of \$263,465 from \$1,647,524, for the same period in 2016. The increase is largely a result of an increase in the number of paid, active MobiKEY application software users with the U.S. government.

Services revenue, as a percentage of total revenue, represented 98.5% for the current period as compared to 95.9% for the prior year period.

Services revenue by quarters (in thousands of Canadian dollars)	Mar 31 2017	Dec 31 2016	Sept 30 2016	June 30 2016	Mar 31 2016
MobiKEY application software revenue	\$1,759	\$1,702	\$1,639	\$1,591	\$1,496
Other services revenue	152	163	169	169	152
Total	\$1,911	\$1,865	\$1,808	\$1,760	\$1,648

The table below provides information on the number of and revenue amount for the MobiKEY application software subscribers during each of the last five quarters.

Mar 31	Dec 31	Sept 30	June 30	Mar 31
2017	2016	2016	2016	2016
18,270	17,883	17,344	16,800	16,490
18,098	17,534	17,112	16,629	16,292
\$389	\$388	\$383	\$383	\$367 \$1,496
	2017 18,270 18,098	2017 2016 18,270 17,883 18,098 17,534 \$389 \$388	2017 2016 2016 18,270 17,883 17,344 18,098 17,534 17,112 \$389 \$388 \$383	2017 2016 2016 2016 18,270 17,883 17,344 16,800 18,098 17,534 17,112 16,629 \$389 \$388 \$383 \$383

⁽¹⁾ Calculated by taking the average of the closing MobiKEY subscriber number at the end of the month for each of the three months during the quarter.

⁽²⁾ Calculated by dividing the MobiKEY revenue during the quarter by the average number of users and multiplying by four.

Gross Profit

Gross profit is revenue minus the cost of revenue. The cost of revenue primarily includes the cost of our devices and appliances sold to clients, as well as the cost of shipping and packaging, plus the cost to operate and maintain the Route1 MobiNET platform.

The cost of revenue for the three months ended March 31, 2017 was \$334,999, representing a decrease of \$12,680 from \$347,679 for the same period in 2016. A large portion of the decrease in cost of revenue for the three months ended March 31, 2017 is the result of decreased device and appliance sales compared to the same period in the prior year.

Gross profit for the three months ended March 31, 2017 was \$1,605,771 or 82.7% of gross revenue, representing an increase of \$235,827 from a gross profit of \$1,369,944 or 79.8% of gross revenue for the same period in 2016.

Expenses

Operating expenses consist of general administration, research and development, and selling and marketing. Operating expenses for the three months ended March 31, 2017 were \$1,288,466, representing a decrease of \$43,783, from \$1,332,249, for the same period in 2016.

General administration

General administration expenses consist primarily of salaries and benefits for administrative staff, professional fees, rent, telephone, computer related expenses, directors' fees, insurance, public company and regulatory costs, depreciation and amortization and other indirect costs.

General administration expenses for the three months ended March 31, 2017 were \$768,302 representing a decrease of \$13,785, from \$782,087 for the same period in 2016. The majority of the change can be summarized as follows:

- Bonuses paid to non-management personnel decreased by approximately \$8,500 for the three months
 ended March 31, 2017 as compared to the same period in 2016 as the Company paid no bonuses in the
 current period.
- Telecommunication expenses decreased by approximately \$3,000 for the three months ended March 31, 2017.

Research and development

Research and development expenses consist of salaries and benefits for the research and development department, and other professional fees associated with development work.

Research and development expenses for the three months ended March 31, 2017 were \$281,168, representing a decrease of \$51,864, from \$333,032, for the same period in 2016. The majority of the change can be summarized as follows:

- Salaries and benefits expenses decreased by approximately \$58,000 for the three months ended March 31, 2017 as compared to the same period in 2016. The decrease is the result of a reduction in head count.
- The Scientific Research and Experimental Development credit decreased by approximately \$6,000 for the three months ended March 31, 2017. The decrease of the credit is the result of a change in recognizing the expected future credit as projects become eligible throughout the year.

Selling and marketing

Selling and marketing expenses consist primarily of salaries and commissions, agent fees, marketing and trade shows, and travel and entertainment.

Selling and marketing expenses for the three months ended March 31, 2017 were \$238,996, representing an increase of \$21,866 from \$217,130, for the same period in 2016. The majority of the change can be summarized as follows:

• Commission costs increased by approximately \$18,000 for the three months ended March 31, 2017 as compared to the same period in 2016 as a result of increased sales.

Other Items

Stock-based compensation

Stock-based compensation was \$95,715 for the three months ended March 31, 2017, a decrease of \$30,708 from \$126,423 for the same period in 2016. The contributing factor to the lower expense was the reduction of options vesting during the three months ended March 31, 2017 as compared to the same period in 2016.

Patent litigation

Patent litigation expenses consist of legal fees and other third party costs incurred to prosecute cases of alleged patent infringement. Legal costs to prosecute the alleged patent infringement complaint are expensed as incurred with any potential gain on settlement to be recognized on realizations.

Patent litigation expenses for the three months ended March 31, 2017 were \$nil compared to \$nil for the three months ended March 31, 2016.

On March 27, 2017, the Company filed a complaint against AirWatch LLC (AirWatch) in the US District Court for the District of Delaware for infringement of Route1's U.S. Patent No. 7,814,216 (the "216 Patent"), seeking damages and an injunction. Route1 alleges that AirWatch infringes on the 216 Patent through at least the operation of a cloud-based controller of what AirWatch refers to as "The AirWatch Enterprise Mobility Management System" (AirWatch EMM System) in order to facilitate secure communications between remote computing devices such as cell phones, remote computing devices and resources residing on corporate networks such as email and corporate intranets and application programs such as spreadsheets and word processors.

Foreign exchange gain (loss)

Foreign exchange gains or losses are primarily attributable to fluctuations in the Canadian/U.S. dollar exchange rates. The loss attributable to foreign exchange translation on balance sheet items such as Accounts Receivable, Accounts Payable and bank accounts denominated in foreign currencies was \$13,245 for the three months ended March 31, 2017, a decrease of \$164,125 from a loss of \$177,370 for the same period in 2016. There was volatility and fluctuation of the Canadian dollar against the U.S. dollar during the first quarter of 2017, from a low of 1.3016 to a high of 1.3513.

The functional currency of the parent company is Canadian dollars and the reporting currency is Canadian dollars. As at March 31, 2017, the Company had non-Canadian dollar net monetary assets of approximately US\$718,893 (December 31, 2016 - approximately US\$1,048,037). An increase or decrease in the U.S. to Canadian dollar exchange rate by 5% as at March 31, 2017 would have resulted in a gain in the amount of

\$47,803 or a loss of \$47,803 (December 31, 2016 – gain or loss of \$70,360). As at March 31, 2017, the Company had a non-Canadian dollar monetary liability of approximately €4,200 (December 31, 2016 - approximately €nil). An increase or decrease in the Euro to Canadian dollar exchange rate by 5% as at March 31, 2017 would have resulted in a loss in the amount of \$298 or a gain of \$298 (December 31, 2016 – gain or loss of €nil). Any gain or loss would have been included in the determination of net income.

From time to time, the Company may enter into U.S. dollar forward contracts to mitigate possible foreign exchange risk. The timing and amount of foreign exchange contracts are estimated based on existing or anticipated sales, current conditions in the Company's markets, the estimated timing of payments denominated in Canadian dollars and the Company's past experience. The Company's policy is not to utilize financial instruments for trading or speculative purposes.

Income tax recovery - Income tax expense and deferred tax recovery

For the three months ended March 31, 2017 the Company recognized an income tax expense of \$179,353, an increase of \$179,353 from \$nil for the same period in 2016.

For the three months ended March 31, 2017, the Company also recognized a deferred tax asset of \$179,353, an increase of \$179,353 from \$nil for the same period in 2016. The recognized deferred tax asset relates to unused tax losses that are considered to be offset against the Company's taxable profits expected to arise in future fiscal years. Management has based their recognition of the deferred tax asset on the operating budget previously approved, the Company's ability to meet this budget and its operating forecast moving forward.

Comprehensive (Loss) Gain After Taxes

Comprehensive gain for the three months ended March 31, 2017 was \$208,345 or \$0.00 per share, representing an increase of \$474,443 from a comprehensive loss of \$266,098 or \$(0.00) per share for the same period in 2016.

SUMMARY OF QUARTERLY RESULTS

The following table sets out selected unaudited financial information of the Company on a consolidated basis for the last eight quarters. The information has been derived from the Company's quarterly unaudited condensed interim consolidated financial statements that, in management's opinion, have been prepared on a basis consistent with the consolidated annual financial statements and are reviewed and approved by the Company's Board of Directors. The Company's quarterly operating results have varied substantially in the past and may vary substantially in the future. Accordingly, the information below is not necessarily indicative of results for any future quarter.

The Company's revenue and financial results are difficult to forecast and have historically fluctuated on a quarterly basis, and it is expected that quarterly revenue and financial results will continue to fluctuate in the future as the Company continues growing. Fluctuations in results are related to the growth of the

Company's revenue, the timing of revenue being recognized and sales to customers, who may place large single orders in any one quarter, and the timing of staffing and infrastructure additions to support growth.

LIQUIDITY AND CAPITAL RESOURCES

Management continually assesses liquidity in terms of the ability to generate sufficient cash flow to fund the business. Net cash flow is affected by the following items: i) operating activities, including fluctuations in the levels of accounts receivable, inventory, prepaid expenses, accounts payable and deferred revenue; ii) investing activities, including the purchase of capital assets; and iii) financing activities, including the issuance of and/or repurchase of capital stock.

Cash used in operating activities

Cash flow generated from operating activities for the three months ended March 31, 2017 was \$392,963, compared to cash flow used of \$6,071 in the same period in 2016, representing an increase of \$399,034. Non-cash working capital used was \$1,602,270 for the three months ended March 31, 2017 compared to \$751,870 used in the same period a year earlier. Therefore, net cash used in the day—to-day operations for the three months ended March 31, 2017 was \$1,209,307 compared to \$757,941 in the same period in 2016, representing an increase of \$451,366.

Cash used in investing activities

Cash used in investing activities for the three months ended March 31, 2017 was \$32,693 compared to cash used of \$6,578 in the same period in 2016, representing an increase of \$26,115. The increase in cash outflow is the result of furnishings and leasehold improvements for a new office space.

Cash used in financing activities

Cash used in financing activities for the three months ended March 31, 2017 was \$nil compared to cash used of \$79,703 for the same period in 2016. The decrease in cash outflow is the result of the Company not repurchasing its common shares for cancellation in the three months ended March 31, 2017. For additional information see "SHARE REPURCHASE PROGRAM" of this MD&A.

The Company's current business plan projects revenue growth in 2017 and beyond. The Company believes that its success in securing sales contract vehicles with the U.S. government will lead to growth within the U.S. government and future opportunities abroad with other governments.

The Company's need for capital expenditures is limited to such items as computer hardware and software, expenditures to support sales, marketing and general administration activities and working capital. Since inception, the Company has financed its cash and/or capital requirements through operating cash flow, the issuance of equity from private placements, and through the issuance of obligations under capital leases.

On October 4, 2011, the Company entered into a \$550,000 credit facility with a banking and financial services organization consisting of a \$500,000 revolving demand operating facility and a \$65,000 VISA facility. On September 9, 2016 the credit facility was renewed. The revolving demand credit facility carries an interest rate equal to the lender's prime rate of interest plus 1.80%. The credit facility is secured by the assets of the Company. There is no minimum collateral asset value to access the first \$100,000; accessing an amount in excess of \$100,000 is based on the balance and term of the Company's trade accounts

receivables outstanding plus the amount of SR&ED tax credits filed and refundable. The Company had not drawn on the facility as of March 31, 2017.

The following table discloses future payments as at March 31, 2017 committed by the Company over the next five (5) years and thereafter. It includes both principal and interest obligations required under capital lease agreements.

Contractual Obligations	No later than 1 year	Later than one year and not later than five years	Later than five years	Total
Operating leases	\$157,897	\$613,959	\$-	\$771,856

DEVICES AND APPLIANCES HELD FOR SALE

On a quarterly basis or when necessary, management reviews the carrying value of inventory. Under IFRS, inventory must be recognized at the lower of cost and net realizable value, which is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale. As a result, for the quarters ended March 31, 2017 and 2016 management reviewed the sales mix of its MobiKEY Classic 3 device, MobiKEY Classic 2 device, MobiKEY Classic device, MobiKEY Fusion3 device, MobiKEY Fusion2 device and the MobiKEY Fusion device and no adjustment to the carrying value was required.

RELATED PARTY TRANSACTIONS

The Company has directors and officers who are considered related parties. The Company had the following transactions and/or outstanding amounts with related parties for the years ended December 31, 2016 and 2015 comparatives. All transactions are recorded at their exchange amounts.

- The Company made payments (including HST) to 1220764 Ontario Inc. for management services provided by Mr. Tony P. Busseri, a director and the CEO of the Company in the amount of \$94,638 for the quarter ended March 31, 2017 (March 31, 2016 \$101,700). For the quarter ended March 31, 2017 the Company also incurred stock based compensation expense in the amount of \$21,555 (March 31, 2016 \$44,410).
- The Company incurred expenses (including CPP and EHT) payable to and on behalf of the independent members of the Board of Directors of \$75,580 for the quarter ended March 31, 2017 (March 31, 2016 \$79,418). These transactions are in the normal course of operations and are paid or payable for directorship services. As at March 31, 2017, accounts payable included \$75,049 owing to directors (March 31, 2016 \$79,418). For the quarter ended March 31, 2017 the Company also incurred stock based compensation expense related to stock options granted to directors in the amount of \$25,422 (March 31, 2016 \$51,729).
- The Company made payments to or incurred expenses for key management (President, Chief Technology Officer and the Chief Financial Officer) in the quarter ended March 31, 2017 as follows, with 2016 comparatives.

Three Months Ended	Three Months Ended
March 31, 2017	March 31, 2016
\$210,109	\$ 191,709
48,151	28,704
\$258,260	\$ 220,413
	March 31, 2017 \$210,109 48,151

PROPOSED TRANSACTIONS

The Company has not entered into any asset or business acquisition or disposition transactions.

CRITICAL ACCOUNTING ESTIMATES

The consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS"). Management makes certain estimates and relies on certain assumptions relating to reporting the Company's assets and liabilities as well as operating results in order to prepare the audited financial statements in conformity with IFRS. On an on-going basis, the Company evaluates its estimates and assumptions including those related to revenue, the valuation of accounts receivable, the estimation of useful lives of the various classes of capital assets, stock-based compensation expense, and the measurement of income tax valuation allowances. Actual results could differ from those estimates, which are as follows:

- The Company's revenue is derived from hardware sales (i.e. MC3 device, MC2 device, the MobiKEY Classic device and the MobiKEY Fusion3 device, the MobiKEY Fusion2 device and the MobiKEY Fusion device) and subscription services (i.e. MobiKEY application software). The Company recognizes revenue in accordance with IAS 18, "Revenue".
- In the determination of the valuation of accounts receivable, including the allowance for doubtful accounts, the Company relies on current customer information, payment history and trends as well as future business and economic conditions.
- The determination of inventory obsolescence allowance.
- The estimation of useful lives of the various classes of capital assets is based upon history and experience of similar assets within each class.
- The fair value of stock options is based on certain estimates applied to the Black-Scholes option-pricing model as disclosed in the Company's financial statements.
- The recognition of SRED tax credits and government grants (if any).
- The measurement of the income tax valuation allowance is based upon estimates of future taxable income and the expected timing of reversals of temporary differences.

FUTURE ACCOUNTING POLICY CHANGES

Financial Instruments

IFRS 9, "Financial Instruments" (IFRS 9), was issued by the IASB in July 2014 and will replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. Requirements relating to Hedge Accounting, representing a new hedge accounting model, have been added to IFRS 9 in November 2013. The new model represents a substantial overhaul of hedge accounting which will allow entities to better reflect their risk management activities in the financial statements. The most significant improvements apply to those that hedge non-financial risk, and so these improvements are expected to be of particular interest to non-financial institutions. The standard is effective for annual periods beginning on or after January 1, 2018, with early

adoption permitted. The Company is assessing the impact of adopting IFRS 9 on the consolidated financial statements.

Revenue from Contracts with Customers

IFRS 15, "Revenue from Contracts with Customers" (IFRS 15), was issued by the IASB in May 2014 and will supersede current revenue recognition guidance, which is currently found across several standards and interpretations including IAS 11, Construction Contracts and IAS 18, Revenue. IFRS 15 provides a framework for determining the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. The standard is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company is in the process of assessing the impact of this standard on its consolidated financial statements.

Leases

IFRS 16, "Leases" (IFRS 16), is effective for years commencing on or after January 1, 2019, and replaces IAS 17, Leases. The standard provides a single lessee accounting model, requiring lessee to recognize assets and liabilities for almost all leases. The standard is effective for annual periods beginning on or after January 1, 2019, with early adoption permitted. The Company is assessing the impact of adopting IFRS 16 on the consolidated financial statements.

FINANCIAL INSTRUMENTS

Establishing fair value

The carrying amount of financial instruments including cash and cash equivalents, accounts receivable and accounts payable and other liabilities approximates fair value because of the short-term nature of these instruments.

The following table sets out the classification, carrying amount, and fair value of the Company's financial assets and liabilities as at March 31, 2017 and December 31, 2016:

	March 31, 2017		December	31, 2016
	Carrying		Carrying	
	Amount	Fair Value	Amount	Fair Value
FINANCIAL ASSETS				
Cash and cash equivalents	\$703,549	\$703,549	\$1,945,549	\$1,945,549
Accounts receivable	\$387,087	\$387,087	\$181,848	\$181,848
FINANCIAL LIABILITIES				
Accounts payable and other liabilities	\$335,937	\$335,937	\$345,048	\$345,048

FINANCIAL INSTRUMENTS - RISK MANAGEMENT

The Company has exposure to credit risk, liquidity risk and market risk associated with its financial assets and liabilities. The Board has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has established the Audit Committee which is responsible for

monitoring the Company's compliance with risk management policies. The Audit Committee regularly reports to the Board on its activities.

The Company's risk management program seeks to minimize potential adverse effects on the Company's financial performance and ultimately shareholder value. The Company manages its risks and risk exposures through a system of internal controls and sound business practices.

The Company's financial instruments and the nature of the risks to which they may be subject are set out in the following table:

	Credit	Liquidity	Foreign Exchange	Interest Rate
Cash and cash equivalents	Yes		Yes	Yes
Accounts receivable	Yes		Yes	
Accounts payable and other liabilities		Yes	Yes	

Credit risk

Credit risk arises from cash held with banks and credit exposure to customers, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value (net of allowances) of the financial assets. The objective of managing credit risk is to prevent losses on financial assets. The Company assesses the credit quality of counterparties, taking into account their financial position, past experience and other factors. During the quarter ended March 31, 2017, the largest single customer represented approximately \$737,016 of revenue (March 31, 2016 - \$687,743).

Cash and cash equivalents

Cash and cash equivalents consist of bank balances. Credit risk associated with cash is minimized substantially by ensuring that these financial assets are held in highly rated financial institutions. At March 31, 2017, the Company had cash consisting of deposits with Schedule 1 banks in Canada and their subsidiaries in the U.S. of \$703,549 (December 31, 2016 - \$1,945,549).

Accounts receivable

Accounts receivable consist primarily of accounts receivable from invoicing of devices and services. The Company's credit risk arises from the possibility that a customer owing the Company money is unable or unwilling to meet its obligations in accordance with the terms and conditions in the contracts with the Company, which would result in a financial loss for the Company. This risk is mitigated through established credit management techniques, including monitoring customer's creditworthiness, setting exposure limits and monitoring exposure against these customer credit limits.

The carrying amount of accounts receivable is reduced through the use of an allowance for doubtful accounts and the amount of the loss is recognized in the statement of comprehensive income. When a receivable balance is considered uncollectible, it is written off against the allowance for account receivable. Subsequent recoveries of amounts previously written off reduce other expenses in the statement of comprehensive income. As at March 31, 2017, the largest single customer's account receivable represented \$219,031 (December 31, 2016 – \$106,083) of the total accounts receivable. This receivable was fully collected after the quarter.

The following table outlines the details of the aging of the Company's accounts receivable as at March 31, 2017 and December 31, 2016:

	March 31, 2017	December 31, 2016
Current	\$360,414	\$181,848
Past due		
1 – 60 days	26,673	-
Greater than 60 days	-	-
Less: Allowance for doubtful accounts	-	-
Total accounts receivable, net	\$387,087	\$181,848

For the quarter ended March 31, 2017 and year ended December 31, 2016, there was a \$nil balance for the allowance for doubtful accounts.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. In order to meet its financial liabilities, the Company has relied on collecting its accounts receivable, which by nature, are due predominately from government agencies with a high level of certainty of collection.

The Company's ability to manage its liquidity risk going forward will require some or all of the following: the ability to generate positive cash flows from operations and secure capital and/or credit facilities on reasonable terms in the current market place. The following table details the Company's contractual maturities for its financial liabilities, including operating lease commitments, as at March 31, 2017:

Accounts payable and other liabilities	
Operating lease commitments	

		2019 and	
2017	2018	Beyond	Total
\$335,937	\$-	\$-	\$335,937
119,258	155,980	496,618	771,856
\$455,195	\$155,980	\$496,618	\$1,107,793

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the fair value of recognized assets and liabilities or future cash flows or the Company's results of operation.

Foreign exchange

The functional currency of the parent company is Canadian dollars and the reporting currency is Canadian dollars. As at March 31, 2017, the Company had non-Canadian dollar net monetary assets of approximately US\$718,893 (December 31, 2016 - approximately US\$1,048,037). An increase or decrease in the U.S. to Canadian dollar exchange rate by 5% as at March 31, 2017 would have resulted in a gain in the amount of \$47,803 or a loss of \$47,803 (December 31, 2016 - gain or loss of \$70,360). As at March 31, 2017, the Company had a non-Canadian dollar monetary liability of approximately €4,200 (December 31, 2016 - approximately €1). An increase or decrease in the Euro to Canadian dollar exchange rate by 5% as at March 31, 2017 would have resulted in a loss in the amount of \$298 or a gain of \$298 (December 31, 2016 - gain or loss of €nil). Any gain or loss would have been included in the determination of net income.

Interest rate

The Company has cash balances which may be exposed to interest rate fluctuations. At March 31, 2017, cash totalled \$703,549 (December 31, 2016 - \$1,945,549) and the interest rate sensitivity is not material.

SHARE REPURCHASE PROGRAM

On September 16, 2016, the Company announced with approval from the TSX Venture Exchange its intention to make another NCIB. The NCIB permits the Company to purchase for cancellation up to 5% of the common shares in the public float. The maximum number of shares allowed for repurchase is 17,563,870. Purchases under the NCIB may occur during the 12 month period commencing September 27, 2016 and ending September 26, 2017, or the date upon which the maximum number of common shares have been purchased by the Company. Purchases for cancellation under the NCIB during the period from September 27, 2016 to March 31, 2017 were 2,884,000 common shares.

For the quarter ended March 31, 2017, the Company did not purchase any of its common shares for cancellation. For the quarter ended March 31, 2016, the Company purchased for cancellation 1,765,000 of its common shares for consideration of \$79,425 at an average price of \$0.045 per share under the NCIB. The Company also incurred an expense of \$278 for regulatory cost to set up the NCIB and to complete the repurchase during the quarter ended March 31, 2016.

SHARE CAPITAL, OPTIONS AND CONTRIBUTED SURPLUS

The Company's authorized share capital consists of the following:

- Unlimited number of common shares with voting rights and no par value.
- Unlimited number of non-cumulative, non-voting first preferred shares with no fixed dividend rate, issuable in series.
- Unlimited number of non-cumulative, non-voting second preferred shares with no fixed dividend rate, issuable in series.
- Unlimited number of non-cumulative, non-voting Series A first preferred shares with no fixed dividend rate, issuable in series and convertible into common shares at the option of the holder on a one-for-one basis at any time after October 31, 2000.

As of March 31, 2017, the following was outstanding:

	Number of Common Shares	Common Shares
Balance, January 1, 2017	348,193,414	\$22,169,410
Shares issued/repurchased for cancellation	-	-
Balance, March 31, 2017	348,193,414	\$22,169,410

• There are 32,689,000 common share purchase options ("Options") outstanding to acquire 32,689,000 common shares at various prices.

RISK FACTORS AND UNCERTAINTY

Although management has a positive outlook for the Company and continually improves and adapts the Company's risk mitigation strategies, operating in the technology industry inherently involves a certain

level of risk and uncertainty. In management's opinion, the following risk factors, among others, should be considered when evaluating the Company's business and its results of future operations:

- Management's ability to secure additional financing, if needed, on reasonable terms. Access to such
 financing at acceptable commercial terms will be dependent on the timing of recognition and receipt of
 cash from our current receivables and contracts, on our ability to demonstrate execution of our business
 strategy and the general condition of the credit and/or equity markets. Such additional financing may be
 dilutive in nature to existing shareholders.
- The Company's access to credit or capital could be restricted based on a global financial crisis which would restrict credit availability worldwide and could also impact its ability to continue operations.
- The Company's projected revenue in the short-term is tied to approximately US\$2 million in renewals from MobiKEY application software subscriptions and a DEFIMNET platform maintenance agreement, with one or more U.S. Government ("USG") accounts. If one or more USG accounts were to discontinue their relationship with the Company, such events may have a material adverse impact on the Company's financial results.
- A significant portion of the Company's revenues are derived from the United States and in particular
 from U.S. governmental agencies and departments. Immediately after elections, governmental agencies
 and departments often defer material changes in their operations and purchases of products and services
 until a new cabinet is appointed and the political direction is confirmed. This deferral and possible
 change in political direction following the election could have a material adverse effect on the
 prospects, operations and results of operations of the Company.
- The U.S. President has publicly supported certain policies, including those related to changes to international trade agreements and policies favouring U.S. persons and companies. There is uncertainty as to which measures and policies will actually be taken and/or implemented by the United States government, governmental agencies and departments in 2017 and beyond and when such measures and policies would be implemented. Certain of these measures could have a material and adverse effect on the Company.
- Certain Chief Information Officers of governmental agencies in the United States are required to resign following the election of a new President. There is no assurance that a resigning Chief Information Officer will be reappointed or that a newly appointed Chief Information Officer will be supportive (or continue to be supportive) of the Company's products and services. A change in the senior officers and decision makers in the U.S. government and its agencies could have a material adverse effect on the Company.
- In addition, to the risks discussed above, the Company expects that as a consequence of this transition process the confirmation of the approval and/or renewal of the Company's products and services will be delayed and/or not subject to the approval process experienced in the past and that such delay and/or change in process will make it difficult for the Company to effectively forecast revenues for 2017 and to plan and budget its operations for 2017 and this could have a material adverse effect on the Company.
- The Company's ability to collect payment on a timely basis for services delivered may have a material adverse impact on the Company's liquidity position.
- There is no assurance that any forward-looking statement will materialize. Unless otherwise indicated, forward-looking statements describe expectations as of the date of this document.
- Route1 disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
- Third-party claims for infringement of intellectual property rights by Route1, and the outcome of any litigation with respect thereto, may harm the Company's competitive advantage in the secure remote access industry;

- Route1's ability to successfully obtain patent or other proprietary or statutory protection for its technologies and products, may harm the Company's competitive advantage in the secure remote access industry;
- Route1's ability to obtain rights to use certain software or components which are supplied by third parties, may not be sufficient to support future sales volumes;
- The ability to run efficient and uninterrupted operation of Route1's MobiNET platform, which could impact on the credibility of the Company's product and services;
- Route1's ability to establish new, and to build on its existing customer base, could also slow the Company's continued growth;
- The occurrence of a breach or perception of a breach of Route1's secure product and service offering, may impact on the credibility of the Company's product and services;
- The inappropriate disclosure of confidential information of the Company may have an impact on the credibility of the Company's product and services;
- Competition, both with existing providers as well as with any future providers entering the marketplace, within the secure remote access industry may hamper future sales growth;
- Route1's reliance on its suppliers and the risk that suppliers will not be able to deliver required components on a timely basis, which may slow future sales growth;
- Any future government(s) regulation of the secure remote access industry, including but not limited to restrictions on encryption of the MobiKEY device and the MobiNET platform may hamper future growth;
- Any significant economic downturn, in geographic areas where Route1 engages in business activities, that may cause those government agencies to reduce discretionary budget spending in areas such as secure identity solutions.
- Any delays in the budget approval process by the U.S. government may delay the procurement and spending in areas such as digital security solutions.

The Company records transactions in Canadian dollars and conducts business both in Canada and internationally. The volatility of the Canadian dollar against currencies such as the U.S. dollar and the Euro can impact financial results negatively should the Canadian dollar appreciate significantly.

Audit Committee

The three members of the Audit Committee are independent and all meet the qualifications of a financial expert and all are financially literate as such term is defined in National Instrument 52-110 – Audit Committees.

Legal proceedings

In the normal course of operations, the Company may be subject to litigation claims from customers, suppliers, patent holders, resellers and former employees. A provision is recognized when the probability that the event will occur is greater than the probability that it will not. The Company regularly reviews any outstanding claims to see if they meet the criteria. A provision is calculated based on management's best estimate of probable outflow of economic resources.

REVENUE INFORMATION

For sale of devices, revenue is recognized at the time of shipment of the device which constitutes transfer of ownership of the device. Revenue for the services component is reported as deferred revenue on the statement of financial position and is recognized as earned revenue for the period in which the service is provided. At March 31, 2017, the Company had \$804,681 (December 31, 2016 - \$2,182,668) in deferred revenue.

The following table provides a component presentation of the Company's revenue streams for the quarter ended March 31, 2017 and 2016:

Devices and appliances Services Other

201	2017		2016	
Revenue	% of Total	Revenue	% of Total	
\$29,567	1.5	\$69,170	4.0	
1,910,989	98.5	1,647,524	95.9	
214	0.0	929	0.1	
\$1,940,770	100.0	\$1,717,623	100.0	

The following table provides a geographical presentation of the Company's revenue streams for the quarter ended March 31, 2017 and 2016:

USA Canada

201	2017		2016	
Revenue	% of Total	Revenue	% of Total	
\$1,894,806	97.6	\$1,666,517	97.0	
45,964	2.4	51,106	3.0	
\$1,940,770	100.0	\$1,717,623	100.0	

ADDITIONAL INFORMATION

Additional information about Route1 is available from Route1's website at www.route1.com, the SEDAR website at www.sedar.com, or by request from Route1's head office at 8 King Street East, Suite 600, Toronto, Ontario, Canada M5C 1B5 (telephone 416-848-8391).
