Acquisition of Group Mobile

- On March 22, 2018, Route1 closed the acquisition of Group Mobile Int'l, LLC (Group Mobile) from XpresSpa Group, Inc. (XpresSpa Group).
- **Group Mobile** based in Chattanooga, TN and Chandler, AZ, supplies rugged mobile technology solutions to leading automotive manufacturing companies and suppliers, other leading manufacturing and distribution companies, as well as local and state governments in the southeastern and southwestern United States

Group Mobile

- **Group Mobile Background:**

- Deployed over 1.5 million rugged mobile devices.
- <https://groupmobile.com/>.
- Based on historical results, quarterly revenue of USD \$3.4 million to USD \$4.5 million, gross profit margin of 16% to 22% and positive EBITDA.
- Increased margins driven by services offerings.
- Rapidly growing recurring revenue *Technology as a Service* model.
- Hardware supplier relationships with the leaders in rugged and warehouse focused technology equipment manufacturers – DT Research, Durabooks, Getac and Zebra.
- Strong distributor relationships including Ingram Micro, ScanSource and Synnex.

Acquisition of Group Mobile

- **Transaction Rationale.** Route1 acquired Group Mobile to:
 - A. Expand Route1's service and product offerings;
 - B. Strengthen outside and inside sales;
 - C. Diversify revenue, customers, and verticals;
 - D. Expand the use of Route1's core technologies into the manufacturing, distribution, and local and state governments; and
 - E. Leverage Group Mobile's current and future placement of rugged mobile devices to sell Route1's ActionPLAN *Powered by MobiNET* and other core technologies as an integrated offering.

Market Highlights

US Government

- Budget was fully funded on March 23, 2018.
- Restructuring, reorganization, amalgamation and role elimination has become the new norm within the USG.

Cloud and Web-enablement of Applications

- Cloud has proven to be a viable and cost effective model for optimizing computing resources.
 - Public, private and hybrid models are being endorsed by enterprises and encouraged by the government policy makers.
- Traditional desktop productivity software are being replaced by online versions.

Market Highlights

Internet of Things and Identity Management

- We are at the brink of a time when majority of electrical “things” will become interconnected.
- They will communicate with us – or amongst themselves, they will have online user interfaces that can be controlled from any device.
- This trend will bring an unprecedented level of cybersecurity risk.
- The Identity Management players are broadening their offerings to expand beyond individuals and systems, positioning themselves to manage authentication for any device (Internet of Things), we see these two spaces merging in the future.
 - We expect to see significant growth in this segment of the market in the coming years.
 - This is a good fit for our *ActionPLAN Powered by MobiNET* technology and will create new opportunities to evolve *ActionPLAN Powered by MobiNET* to additional verticals, industries and service offerings.

TaaS Model

- **Example** Group Mobile client in US dollars
- Revenue of \$60,000 per month
 - \$900,000 of invested capital
- We purchase the assets and "rent" them out to the client
- We depreciate the assets over the life of the agreement, typically 36 months, with no residual value at the end of the contract
 - Nominal dollar cash flow payback after 15-17 months
- Customers often continue to use the equipment after the term of the contract and pay the monthly rental
 - With no depreciation, the TaaS revenue is highly profitable
