

Route1 Announces MobiKEY Offering with Samsung DeX

Toronto, July 5, 2018 - [Route1 Inc.](#) (OTCQB: ROIUF and TSXV: ROI) (the “Company” or “Route1”), a leading technology solutions innovator dedicated to delivering secure data protection technologies and mobility solutions for government and the enterprise sector, announced today that the [MobiKEY](#) technology now works with [Samsung DeX](#).

Military personnel are required to work wherever their mission takes them - on base, at home, or deployed in the field. With products like Samsung DeX, which transforms mobile productivity, users can easily connect their latest Samsung Galaxy smartphone to a monitor, keyboard and mouse for a convenient PC-like experience. And, when combined with Route1’s MobiKEY solution, personnel gain secure remote access to DoD networks, desktops and files through a CAC-authenticated session.

Tony Busseri, CEO of Route1 states, “We are excited to partner with Samsung to bring this fully secure solution option to DoD, military and even enterprise employees. **MobiKEY is built with security as its first priority.** MobiKEY is NOT a browser-based technology. MobiKEY is NOT a VPN thereby mitigating risk of penetration attack and malware introduction.”

“We’re focused on maximizing mobile productivity for government and military personnel at the mission edge,” said Chris Balcik, Vice President of Federal at Samsung. “Through this integration with MobiKEY, users can securely leverage our DeX solution for a full desktop-like experience from the convenience of their smartphones, while saving the cost or burden from carrying a laptop.”

Additionally, the two companies will be holding an informational webinar on **July 10, 2018 at 1:00 p.m. eastern** for the Department of Defense (DoD) and other U.S. government agency personnel who can benefit from this workforce productivity solution. The webinar, hosted by Samsung’s Jamie Wu and Route1’s Mike Seiler, will give attendees a closer look at the evolution of the mobile workforce and how organizations can improve their CAC/PIV strategy.

To register for the webinar please visit: <https://business.samsungusa.com/DeX-Mobikey>.

[About Route1 Inc.](#)

Route1 Inc. is a leading technology solutions innovator dedicated to enabling mobility for government and focused enterprise vertical markets by delivering secure data protection technologies and mobility

solutions. The Company's suite of patented enterprise security solutions, which includes MobiKEY, ActionPLAN, *powered by MobiNET*, MobiENCRYPT and DerivID, delivers best-in-class authentication, data security, data analytics and secure remote access, running on a proven, trusted infrastructure, which meets or exceeds the highest security standards for government and industry. Route1 has earned a Full Authority to Operate from the U.S. Department of Defense, the U.S. Department of the Navy, the U.S. Department of the Interior, and other government agencies. The Company is proud to be a trusted solutions partner in the banking, healthcare, legal, education, public sector, manufacturing, logistics, field service and warehousing industries.

Through Route1's wholly owned subsidiary, Group Mobile Int'l, LLC, the Company is a trendsetter in the enterprise technology space by providing expertise in building mobility solutions and deploying complete offerings into vertical markets through specialized hardware, software and our expanding services capabilities. Route1 is a pioneer in IIoT (Industrial Internet of Things) through the delivery of our ActionPLAN, *powered by MobiNET* technology, which not only captures data from electrical inputs including sensor data but takes it to the next level by interpreting, analyzing, transforming the data to deliver strategic business intelligence.

The diverse but complimentary technologies our Company provides, along with the level of experience and expertise of our team, uniquely positions us as the pre-emptive leader in secure and complete mobile technology solutions. Route1 remains focused and dedicated to serving the needs of our business partners; to positively influence their profitability, contribute to their longevity and share in their success. With offices and staff in Washington, D.C., Boca Raton, FL, Phoenix AZ, Chattanooga TN and Toronto, Canada, Route1 provides leading-edge solutions to public and private sector clients around the world. Route1 is listed on the OTCQB in the United States under the symbol ROIUF and in Canada on the TSX Venture Exchange under the symbol ROI. For more information, visit: www.route1.com.
