ROUTE1
DRIVING DATA FORWARD

Route1's four pillars build **smart and secure** communities, enterprises, and government

PILLAR 1 — Data Security

Our patented technologies eliminate the **risks** to your organization beyond what a traditional VPN can do, including:

- **PENETRATION ATTACKS**
- **DATA LEAKAGE**
- **IDENTITY FALSIFICATION**
- **THE HUMAN FACTOR**

MobiKEY

SPYRUS

PILLAR 2 — Data Acquisition and Analytics

Real-time analytics that allow your team to prioritize and take immediate actions when seconds truly matter.

Data isn't biased. It's just facts. Route1 knows how to utilize this data to create the transparency and honesty that organizations need to get ahead; whether you're building smart communities, smart manufacturing plants, or simply a smarter business.

ActionPLAN

MobiLPR

ScreenSTOP
Powered by MobiNET

With patented technologies trusted by The Pentagon, DoD, and large enterprises.

While you focus on your expertise, we focus on ours: data intelligence. Together, we can build the map that puts you on the road to long term, sustainable advantages that will result in a stronger, more secure, and highly efficient organization.

PILLAR 3 — Data Visualization

Route1 offers a wide range of solutions for unique and adverse conditions to ensure every workforce is equipped properly while ensuring data security compliance. Our TAAS options allow companies unique ways to finance the technology they need, when they need it.

Route1 is a trusted expert in the acquisition, architecture, installation, and support of these brands among others:

ZEBRA
Getac
Genetec™
Panasonic

PILLAR 4 — New Technology and Services

Whatever you call work—a hospital, a university parking lot, or a theater of operations—we can help you leverage data with advanced technologies and services.
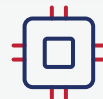

Take your company to the next level with custom software and technology development. Allow our renowned Route1 in-house implementation team to help you redraw the boundaries of your capabilities.

SOFTWARE DEVELOPMENT

TECHNOLOGY AS A SERVICE (TAAS)

MANAGED HARDWARE SERVICES

HARDWARE BREAK-AND-FIX

ENGINEERING AND INSTALLATION

This continuous data intelligence process is how **Route1** builds **smart and secure** infrastructures.

VISUALIZE DATA WITH INDUSTRIAL-GRADE RUGGED DEVICES

LEVERAGE DATA WITH ADVANCED TECHNOLOGIES AND SERVICES

UNDERSTAND DATA WITH REAL-TIME ACQUISITION AND ANALYTICS

SECURE DATA WITH PATENTED TECHNOLOGIES

"**Route1** has been a reliable partner, shown us great team work, and been extremely patient throughout our integration project. We couldn't be happier."

- Margo Polley
Strategic Advisor, Curbside Management / Transit & Mobility Division
City of Seattle Department of Transportation

GAIN ACTIONABLE INTELLIGENCE, GENERATE EXCEPTIONAL OUTCOMES

Route1 partners with government and Enterprise to leverage their data to make better decisions that lead to:

INCREASED PROFITABILITY

IMPROVED EFFICIENCIES

ENHANCED OUTCOMES

GREATER MARKET SHARE

SUSTAINABLE COMPETITIVE ADVANTAGES

Route1 is the parent company of operating subsidiaries **Route1** Security Corporation, Group Mobile Int'l, LLC & PCS Mobile. Such subsidiaries, as applicable, continue as valid parties to all agreements.
